

The American Board of Dental Sleep Medicine

Our Vision:

To certify dentists competent in dental sleep medicine.

Our Mission:

- To recognize, by certification examination process, licensed dentists who have proficiency in knowledge, training, and experience to practice dental sleep medicine at the standard of care set by that profession.
- To develop, administer, and determine the exam passing score, a written qualification examination based on current validated research and known standards of clinical care.
- To explore the latest in educational certification processes that will continue to provide to the profession an unbiased and accurate certification exam.
- To support the standard of care for dental sleep medicine.

Our Core Values

Integrity

To be honest, ethical, moral, and transparent.

Competence

To be proficient, capable, and accomplished.

Validated Quality Research

Research with the highest level of evidence and that is peer reviewed.

High Standards of Clinical Care

Based on guidelines from professional academies, on the laws of the land, and validated by a panel of experts in the field.

High Standards of Psychometric Testing

Objective measurement of knowledge and skills and validated by a defensible and proven process in the field of psychometrics.
